Objective

Aspiring AI/ML professional with a background in ICT (Application Development) and hands-on experience through internships and hackathons. Passionate about leveraging data and machine learning to solve real-world problems.

Education

Diploma in Information and Communications Technology (Application Development)
Institution: Walter Sisulu University 2024

Technical Skills

Programming Languages: Python, Java, HTML, CSS, JavaScript
AI/ML Tools: Scikit-learn, Pandas, NumPy, Streamlit
Technologies: Git, GitHub, REST APIs
Other: Data Visualization, Model Evaluation, Data Preprocessing

Certifications & Training

- Artificial Intelligence & Python - Samsung Innovation Campus
- SheCodes Bootcamp
- Telkom Hackathon Participant

Soft Skills

Team Collaboration

Problem Solving

Critical Thinking

Communication

Adaptability

Experience

AI Intern – Capaciti (Present)

Working on AI-related projects focusing on natural language processing, sentiment analysis, and practical deployment of machine learning models using Python and Streamlit.
